READER EXTRA · PRINTABLE

Canning *Log*

A simple record of every batch: what you made, when, how many jars, and how they turned out.

HOW TO USE THIS PRINTABLE

- Fill in one line for every batch, on the day you can it.
- Write the altitude line and the processing time you used, so you can repeat a good batch exactly.
- Check the seals 12 to 24 hours later and write how many sealed out of the total.
- At the end of the season, the review page tells you what to make more of and what to change.
- Print as many log pages as you need.

CANNING LOG

Batch *record*

DATE	RECIPE	JARS SIZE × NUMBER	ALTITUDE & TIME USED	SEALED OF TOTAL	HOW IT TURNED OUT
