READER EXTRA · PRINTABLE

Canning *Labels*

Round jar labels, labels with every base recipe already printed, and gift tags.

HOW TO USE THIS PRINTABLE

- Print at **100% / Actual size** on sticker paper, or on plain paper and attach with a glue stick.
- Cut along the dashed line. Write the date you canned the jar and, if you make the same recipe twice in a season, the batch.
- Put labels on the side of the jar or on top of the lid **only after the jar has sealed and cooled**. Never put paper between the lid and the jar.
- Gift tags have room for the ingredients: list them when you give jars to someone with food allergies.
- Print as many sheets as you need.
